Nexus vs Drums

VS

Cheaper to buy. There is only one Nexus, typically, 50% cheaper than Drum filters.

Upfront cost

Over 20 brands of drums available for you to buy in the UK ranging from £2.5K up to £14K.

Cheaper to run and service. Only one circulating pump and air pump needed to run the full system.

Running cost

More energy is consumed due to the many mechanical components needed for operation and cleaning.

More reliable and built to last. Arguably the most successful and reliable Koi filter on the market.

Reliability

More complicated with many moving parts (motor, mechanics, electronics) so more likely to break.

Support and all spare parts available to buy direct from us and from a network of stockists.

Support

Spare parts are much more expensive. Availability and support will vary depending on the brand.

Supplied ready to be installed on Pump-Fed or Gravity-Fed systems.

Low Maintenance

Minimal ongoing maintenance required to keep the filter working for years to come.

What Nexus Owners Say

"I love it - one of the best filters on the market, it's easy to use, cleaning takes the time to make and drink a cuppa. I've had it about 18 months, water is clear so much more reliable than a drum."

ALEX - OWNER OF NEXUS 220+ FOR 18 MONTHS

"Great filter as my water is crystal clear"

MARK - OWNER OF NEXUS 320+ FOR 2 YEARS

"What I like about the Nexus is how easy it is to clean and that there isn't really any moving parts that can go wrong"

MAT - OWNER OF NEXUS 220 FOR 7 MONTHS

"Has made the laborious task of filter cleaning an absolute breeze"

GEORGE - OWNER OF NEXUS 220 FOR 3 YEARS

"Maintenance has been a pleasure since, and allowed more time to enjoy the hobby. The reliability gives great peace of mind."

STEPHEN - OWNER OF NEXUS 200 FOR 18 YEARS

"I love the ease of use and the way it removes fish waste even on a slightly overstocked pond."

STEVE - OWNER OF NEXUS 200 FOR 14 YEARS
